

Allens Leak Detector RTU Fluid

PRODUCT DESCRIPTION

Allens Leak Detector Fluid is a ready to use blend of high foaming surfactants. Specially formulated to be completely biodegradable and non-corrosive to all types of pipe media. Can be used in a variety of applicators and typically is supplied in a 1 Litre Bottle.

PRODUCT INFORMATION

- ◆ Contains a blend of anionic and non-ionic surfactants ⇒ Ensures effective detection of gas leaks by readily forming bubbles at the area of leak
- ◆ Incorporates a non aggressive complex detergent formulation ⇒ Suitable for use on all surface types including soft metals and plastics
- ◆ A readily biodegradable mild formula with neutral pH ⇒ Safe to use
- ◆ Pack incorporates a directional nozzle ⇒ Fluid can be applied exactly where required
- ◆ Suitable for all leak detection operations ⇒ *Excess Leak Detector Fluid can easily and safely be washed away*
- ◆ Convenient pack size

SPECIFICATION

Appearance	Non viscous liquid
Colour	Clear colourless/straw coloured
Odour	Slight detergent
pH	6-7
Specific Gravity @ 20°C	1.02 ± 0.01

PACK SIZES

Available in two convenient to use pack sizes: 500ml and 1Litre clear recyclable HDPE containers.

DIRECTIONS FOR USE

Apply product to area to be tested for leaks covering the whole of the suspect area. Any leaks will soon become obvious by the formation of bubbles at the point of the leak. Once testing is complete Allens Leak Detector Fluid may be wiped away with a damp cloth leaving the area clean and uncontaminated.

Store in original container in a cool area.
