

Allens Leak Detector Spray

PRODUCT DESCRIPTION

Allens Leak Detector Spray is a ready to use blend of high foaming surfactants. Specially formulated to be completely biodegradable and non-corrosive to all types of pipe media. Supplied with a pump spray applicator.

PRODUCT INFORMATION

- | | |
|---|---|
| ◆ Contains a blend of anionic and non-ionic surfactants | ⇒ Ensures effective detection of gas leaks by readily forming bubbles at the area of leak |
| ◆ Incorporates a non aggressive complex detergent formulation | ⇒ Suitable for use on all surface types including soft metals and plastics |
| ◆ A readily biodegradable mild formula with neutral pH | ⇒ Safe to use |
| ◆ Fluorescent yellow coloured mobile liquid | ⇒ Easy application with high visibility in poor light areas |
| ◆ Pack incorporates a directional spray nozzle | ⇒ Fluid can be applied where required, especially in hard to access areas |
| ◆ Suitable for all leak detection operations | ⇒ <i>Excess Leak Detector Fluid can easily and safely be washed away</i> |
| ◆ Convenient pack size | |

SPECIFICATION

| | |
|--------------------------------|--------------------|
| Appearance | Non viscous liquid |
| Colour | Fluorescent yellow |
| Odour | Slight detergent |
| pH | 6-7 |
| Specific Gravity @ 20°C | 1.02 ± 0.01 |

PACK SIZES

Available in two convenient to use pack sizes: 250ml and 500ml clear recyclable HDPE containers.

DIRECTIONS FOR USE

Apply product to area to be tested for leaks covering the whole of the suspect area. Any leaks will soon become obvious by the formation of bubbles at the point of the leak. Once testing is complete Allens Leak Detector Spray may be wiped away with a damp cloth leaving the area clean and uncontaminated. Store in original container in a cool area.
