

PRODUCT INFORMATION SHEET

Allens Leak Detector Gel

PRODUCT DESCRIPTION

Allens Leak Detector Gel is a ready to use, viscous blend of high foaming surfactants. Specially formulated to be completely biodegradable and non-corrosive to all types of pipe media. Can be used in a variety of applications and typically is supplied in a 250 ml Bottle, incorporating a brush applicator.

PRODUCT INFORMATION

- ◆ Contains a blend of anionic and non-ionic and amphoteric surfactants
- ◆ Incorporates a non aggressive complex detergent formulation
- ◆ A readily biodegradable mild formula with neutral pH
- ◆ Has a viscous gel texture
- ◆ Pack includes a brush applicator
- ◆ Suitable for all leak detection operations
- ⇒ Ensures effective detection of gas leaks by readily forming bubbles at the area of leak
- ⇒ Suitable for use on all surface types including soft metals and plastics
- ⇒ Safe to use
- ⇒ *Non drip can be used at any angle and excess Leak Detector Fluid can easily and safely be washed away*
- ⇒ Everything you need for leak detection in one convenient pack

SPECIFICATION

Appearance	Viscous liquid
Colour	Clear Fluorescent Yellow coloured
Odour	Slight detergent
pH	6.5-7.5
Specific Gravity @ 20°C	1.02 ± 0.01

PACK SIZES

Pack size available: 250ml clear recyclable HDPE containers.

DIRECTIONS FOR USE

Apply product to area to be tested for leaks covering the whole of the suspect area. Any leaks will soon become obvious by the formation of bubbles at the point of the leak. Once testing is complete Allens Leak Detector Gel may be wiped away with a damp cloth leaving the area clean and uncontaminated.

Store in original container in cool area.
